## Medication Destruction - A New Option

We would like to share with you a product we have found for Medication Disposal that has given us great results. Drug Buster is a Drug Disposal System that safely dissolves drugs and reduces much of the labor time required to crush and dispose of unneeded medications.

We have found that this method of medication disposal is both safe and convenient. This is a great alternative to storing unneeded medications in a container on site and renders the drug unusable immediately. This product also helps you stay in compliance with State Regulations regarding limiting on-site storage and the timely disposal of discontinued or unneeded drugs. One bottle can hold 1500 pills and breaks down the medications into a composition safe to dispose of in landfills.

If you are interested in obtaining Drug Buster, you can read more about this product and order directly from C2R Global Manufacturing at their website [www.drug-buster.com](http://www.drug-buster.com).

## The Guardian Difference

Did you know that Southern Pharmaceutical is part of the third largest Long Term Care Pharmacy in the United States? We have been a part of the Guardian Family of Pharmacies since 2006. We are owned by Guardian Pharmacy, who provides corporate support to us, yet allows us to make local decisions and operate Southern Pharmaceutical to best serve our unique, Alabama-based clients. The Guardian family has grown to over twenty Pharmacies throughout the country and continues growing each year. Some of the benefits our customers receive as part of this partnership is that upon contacting us for any type of support or question, you always speak with someone located in our Pharmacy, right here in Birmingham.

All Pharmacy Operations, Purchasing, Consulting, Billing, Marketing and Administration are done on the local level. Our clients receive Small Company Values and Service backed up by National Company Buying Power and Resources. Other benefits we provide to you include state-of-the-art technology resources such as automated dispensing equipment, a variety of packaging options and access to web based electronic MAR systems. And don't forget, the Account Team who you know and recognize, is always there to provide Customer Service and Account Support!

We thank you for being a part of our pharmacy family! We will strive, every day to exceed your expectations!
